

Maternity Pre-Registration with MyJeffersonHealth

Pre-Registration for Delivery

Patients who are receiving prenatal care at a non-Jefferson Health OB/GYN practice who plan to deliver their newborn at a Jefferson Health hospital can now pre-register ahead of time. Pre-registration can conveniently be completed online, as early as 280 days before expected delivery.

Completing pre-registration ahead of arriving at the hospital for your delivery will save you time and stress. When completing your pre-registration, you will be asked to confirm personal information and insurance, and complete questionnaires.

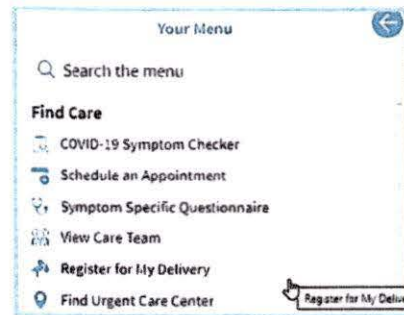

Patients who are receiving prenatal care at a Jefferson Health practice do not need to pre-register for their delivery.

How to Complete Pre-Registration for Delivery

Pre-registration can be completed in the MyJeffersonHealth patient portal. If you do not have a MyJeffersonHealth account, you can create an account by visiting My.JeffersonHealth.org.

1. Log in to your MyJeffersonHealth account by visiting My.JeffersonHealth.org.
2. In the menu bar at the top left, click "Register My Delivery."

3. Complete all sections and click submit to confirm your delivery information.

For more information, please visit JeffersonHealth.org/PatientPortal.
